WORK EXPERIENCE

Full Stack Developer, Golfteamproducts, Remote

May 2021 – Present

- Built React + Remix-based Shopify apps, handling dynamic product filtering by collections, and implementing custom dropdowns for enhanced UX.
- Extended cart functionality using Shopify Storefront and Admin API using GraphQL.
- Implementing advanced Shopify features like line item properties with file upload support using python, integrating with Shopify's Files API to store images and display them in the cart and order details.
- Integrated payment, rewards, and subscription apps into the Shopify store.

Web Developer, Threomens, Remote

Nov 2019 – Sep 2022

- Building custom themes for Shopify stores and WordPress sites, ensuring they align with clients' brand identity.
- Collaborating with designers and project managers to translate client requirements into high-quality, user-friendly web solutions, implementing custom features and functionalities using PHP, Liquid and JavaScript.
- Integrating third-party APIs and services, such as payment gateways, rewards and subscriptions apps, to extend the capabilities of Shopify and WordPress platforms.
- Troubleshooting technical issues related to themes, apps, and website functionality to identify and rectify bugs and optimize performance by implementing best practices in coding, caching, and asset optimization.

Growth Analyst, Rock My World Media Inc, San Diego, California

Sep 2016 – Sep 2019

- Built a one stop shop dashboard for the chatbot application by building REST API in PHP and MySQL to help the business to access and analyze data resulting in higher engagement rate and a better customer experience.
- Developing and implementing data pipelines and data collection systems using Python that manage data integrity and data quality.
- Automating daily/weekly/monthly reports for two of Rock My World's applications, Rock My Run and Jolt.ai, that informed, assisted and saved time for different teams in their day-to-day decision making by providing insights from data.

Web Developer, Counterflow Marketing, San Diego, California

May 2015 – May 2016

- Collaborated closely with the product team to create customer centric web interfaces to manage their business.
- Analyzing, debugging and fixing various production issues quickly with little or no downtime.
